VIRGINIA

**VIRGINIA'S SOUTHERN COMFORT** Nestled in America's heartland, away from the chaos of city life, is a welcoming oasis known as the Clifton Inn. Charlottesville is a small Virginia city with plenty of charm and character, not to mention breathtaking scenery. Prepare to be wrapped in a world of mountain vistas, fine dining and Southern comfort. With corner suites at the Clifton offering amenities such as queen size four-poster beds, claw foot bathtubs and game tables, you will quickly feel at home (even if your own home isn't quite as glamorous). For those ready to splurge, the carriage house features many indulgences including your own grand piano. You will hardly want to spend all your time indoors, however, when there is an abundance of private lakes, nearby vineyards, waterfall pools and gazebos to keep you occupied. A combination of comfort and elegance, the Clifton boasts that "no two rooms are alike, nor are the experiences," but there's really only one way to find out...
